

COVID-19 IgG Antibody Test

(FDA APPROVED
ANTIBODY TEST)

WHO WE ARE

Ageis Home Healthcare is a Chennai based company and is headed by a qualified Anaesthetist with more than 30 years of experience and by a seasoned sales/marketing professional who work with 'Ask - Listen - Deliver' principle.

Together, we aim to
Bring HealthCare to your Doorstep

In order to conduct the IgG test, Ageis is collaborating with Nimpaa Global and DiaSorin, an Italian multinational Group and a global leader in the market for in-vitro diagnostics.

The DiaSorin antibody test detects the presence of antibody in blood using CLIA method. The test also provides a Quantitative Analysis of fighting substance (antibody) present in the blood.

The Benefits

1. ICMR suggested Sero Surveillance Test
2. Helps a long way in addressing your concern regarding COVID-19 infection.
3. IgG positive indicates COVID negative.
4. Provides Quantitative Analysis of fighting substances present in blood.

The Process

1. Trained paramedical person will collect blood sample at your doorstep.
2. The sample will be processed at a NABL - accredited Laboratory in Chennai.
3. Test result with Doctor's interpretation & suggestion will be provided via email.
